

◆ PIER TALK ◆

837th U.S. Army Transportation Battalion (Terminal)

3D Qtr, FY 2005

Commander's Corner

LTC Richard J. Kramer
Battalion Commander

It's hard to believe another quarter has ended. Each and every day I am amazed at the battalion staff who step up to the plate and swing at every pitch thrown at them, and not all of them are strikes! OK, a few hit them in the back, but it's a wild game. The staff continues to impress me with their resourcefulness and can do attitude attacking the daily challenges. I take my hat off to them for their service.

I am pleased to report that the two tests we started last quarter on both lumber/plywood & multipack containers to BSF and DDDK went off with out a hitch. We've signed letters to make the procedures permanent now. We'll continue to monitor on a quarterly basis and further improve distribution within the KTO in both peacetime and contingency.

We welcome Gonzo Rivera as the new Chief of Operations, a position unfilled for the last 11 months. With his arrival, CPT Wolfe will be able stand up the plans section in conjunction with the 2006 TDA. We expect great things from Gonzo's 30 years of prior military experience and he has hit the ground running already.

Just when I think things are slowing down, I look at the next quarter calendar. Highlights that we are currently tracking:

M1A1 shipment, III MEF Deployment, opening of Mokpo Seaport, 599th Terrain walk; possible Navy visit, III MEF redeployment, Navy Hospital swap out, 82nd Eng Co, 5-5 ADA Bn, illumination rounds and the NDTA conference. In true Kargo Kings tradition, all we can say is "Bring it on."

LTC Kramer (right), with Mr. Yi, Chong-won, plants a tree in Young-rak Municipal Cemetery Park on the Korean Arbor day.

XO's Corner

MAJ Terry Draper
Battalion Executive Officer

Greetings once again KARGO KINGS as we find ourselves at the end of another fast-paced and successful quarter of operations and accomplishments.

Operationally, we stepped up and led from the front once again with the successful completion of the 17th Aviation Brigade (-), 50th MRB, an ammunition retrograde mission, as well as another Turbo Cads operation both conducted out of Chinhae. A lot of moving parts and "concerned citizens" within the theater, but through the experience, professionalism and hard working efforts of our military, KNs and DACs, the missions were completed to standard and more importantly, free of injuries, accidents and damage to equipment. Job well done as always.

I would like to personally welcome Mr. Gonzalo Rivera to the KARGO KINGS battalion. He will serve as the Chief of Operations and we're glad to have him on board. I had the privilege to work with him as a 2LT and now we're back together again. He's a proven winner, leader and performer. Welcome aboard!

As far as accomplishments, there were many. First, we welcome back SFC Sprague from his extended deployment in Kuwait in support of 599th operations. He represented himself and the battalion extremely well and we thought it was going to take a pound of C4 to uproot him from the AO. All joking aside, he was an asset to the mission and we're glad to have him back contributing to our missions...he hasn't slowed down since returning executing

the mission.

I would also like to congratulate SSG Colbert for successfully graduating BNCOC at Ft. Eustis. SSG Colbert also represented himself and the battalion well exceeding the standards of the tough leadership, development course. SSG Colbert is one of our many superstars and we look forward to his continued support and success within the organization. On a similar leadership note, KATUSA CPL Moon successfully graduated from PLDC and will take on the role as Senior KATUSA. Our KATUSAs always perform well above expectations and CPL Moon proved that once again with his performance at PLDC. Job well done and lead the way!!

SSG Bruce competed in the 599th NCO of the Year competition. Although he didn't win, he competed hard, represented well and let the other battalions know that the KARGO KINGS always step up to the plate. He also served on the Cobra Gold mission this year. Not sure if he worked hard or played harder and we'll let that question go unanswered for now.

On a safety note, the summer heat is upon us. I encourage everyone to consume ample amounts of fluids during the day especially when working outside. Ensure you're taking breaks in accordance with the work/rest safety recommendations. Everyone should understand and be able to recognize the symptoms of heat related injuries and be on the look out for those symptoms when working outside. Every member of the team is important and we don't want to lose anyone to any type of injury.

Also, the monsoon season has commenced with the rain and overcast skies making their way to Busan. Driving safety becomes paramount during this time of year as visibility and hazardous road conditions increase the chances for accidents and

MAJ Draper presents a Certificate of Appreciation to Mrs. Kim, Ok-hui, Janitress, for her outstanding support to the Kargo Kings for over 50 years at her retirement ceremony.

injuries. If you're driving and the visibility becomes poor, slow down or pull over. Hydroplaning as well as the slick/dirty roads will contribute to accidents during this season. Drive with your headlights on during times of limited visibility. Be careful, take your time and don't take chances. Take the extra 10 minutes to arrive safely.

Keep doing great things and until next time...Let's Go to Work!

SGM's Corner

SGM Clifford McMillan
Sergeant Major

Greetings Kargo Kings,

As we close on the end of another busy quarter, I would like to personally thank you all for the work you do in making all our missions a resounding success. As we continue to train and integrate our newcomers, they are responding in an outstanding manner. As they have led in the restationing of the 17th Aviation and 50th Multi-Role Bridge Company as well as the Ammunition Retrograde, Cobra Gold,

Turbo Cads, and the USNS Watson transshipment.

We welcomed back SFC Sprague from a nine month deployment to Southwest Asia where he made the battalion proud while part of 598th, 597th and 595th Groups' DDST. Without rest, he has assisted and led in all the missions since his return. He will begin taking some much needed leave next month. We also welcome SSG Colbert back from Fort Eustis where he attended BNCOC. He exceeded the course standards in three of five areas. We are happy to have these NCOs back with us.

Let me be the first to say congratulations to all the new as well as returning members of the Kargo King "270 and Above Club" These soldiers scored at least 270 on their last Army Physical Fitness Test (APFT): PFC Hong, 327; SGM McMillan, 324; SGT Lee, 323; SGT Kim, H.W., 304; MAJ Draper, 297; CPT Wolfe, 296; SGT Hwang, D.Y., 294; SGT Kim, W-J, 292; LTC Kramer, 290; CPL Moon, S.B., 289; SGT Jo, 284; SSG Bartell, 276; PFC Park, 275. Honorable Mention but not members: SGT Jun, 269; PFC Lee, 266. Thanks to all for a job well done by leading from the front.

SGM McMillan leads the NCO Charge for SGT Jun, Hyun-wook to make an oath.

For those of you who were not present for the visit by Major General Fletcher and CSM Hawkins in May and the visit by COL Harvey and SGM Jarvis in Jun, I want to express their heartfelt thanks for all you do to support the warfighter on this peninsula and around the world.

Since this will be the last time I will take my corner, I will leave you with this:

"Organization doesn't really accomplish anything". "Plans don't accomplish anything either". "Theories of management don't much matter". "Endeavors succeed or fail because of the people involved". "Only by attracting the best people will you accomplish great deeds". - **General Colin Powell**

Recognize that we have the best people.

Unit First, People Always.

614th TC Detachment (ODT) Annual Training At Pier 8

Mr. Fred A. Vandersys
Plans Office

The 614th TC (Automated Cargo Documentation) Detachment, out of Houston, Texas completed it's Overseas Deployment Training (ODT) mission at Pier 8 on 16 April 05. The unit's mission is to mobilize and deploy to a theatre of operation to document cargo being loaded, discharged, or transshipped using Automated Data Processing (ADP) equipment.

Plenty of preparation and planning was done by many people in advance for the ODT mission at Pier 8.

Mr. Vandersys was the primary contact

614th TC Detachment ODT team posed for a group photo at Pier 8, Busan harbor.

and helped with the coordination of billeting, mission resources and documentation. Unit Training NCOIC, SSG Bartell, coordinated trainers, and other training related activities.

The first day of training was spearheaded by SSG Bruce who coordinated and conducted a one day tour to the Port of Gwangyang, one of our newest Ports of Korea.

Some of the training involved classes which focused on Force Protection, EEDSK/IMARSAT use and setup, NBC Equipment Training, NBC Defense, ICODES familiarization training, Read/Write RFID tags and several others. The classes gave the soldiers "hands on" opportunities to work with the equipment. It exposed them to equipment that hasn't been fielded to reserve units yet, and also afforded the opportunity to use skills that the reservists don't get to exercise as much on a regular basis.

The 614th soldiers were extremely fortunate by participating in actual ship operations at Gwangyang. This gave them an opportunity to show the active soldiers, the familiarity the reservists have with the equipment, and emphasize that we all train for the same types of missions.

Additionally, the last major event was the annual Port ChemEx that included the Republic of Korea (ROK) Army, ROK Navy, Military Sealift Command, Korean Coast Guard, and several other local units. The soldiers trained using their personal protective and sensing equipment in a simulated Chemical Attack at Pier 8. The soldiers also completed several common training tasks in MOPP-4.

A second group of 12 soldiers are scheduled for July – August 2005. We look forward to their visit and expect to provide a comprehensive training strategy for those soldiers visiting the 837th Transportation Battalion.

Cargo Distribution Section

Mr. John Scott
Chief, Cargo Distribution Section

Another busy and eventful quarter for the battalion as CDS continues to provide outstanding support to the mission and units in the KTO. We are proud to announce that Mr. Tae-Ku Yi was selected as the Battalion's Civilian of the 2nd Quarter, FY 05. His selection attests to the dedication and untiring contributions made by all of our KN employees.

We successfully tested container diversion to Defense Distribution Depot-Korea (DDD-K) at Camp Carroll. Commercial containers were diverted from Break Bulk Point (BBP) Pier 8 to DDD-K, Camp Carroll, Waegwan, Korea. The test is part of a DDD-K/SDDC initiative

Mr. Yi is being recognized by LTC Kramer for his selection as the Junior System Employee of the 2nd Qtr, FY 05.

to 1) reduce Customer Wait Time (CWT), 2) reduce transshipping, 3) reduce multiple handling, and 4) reduce overall transportation costs for the DOD. Thirty five percent of cargo unstuffed at Pier 8 is already destined for Camp Carroll, Waegwan, thus eliminating transshipment costs and time. Cargo destined for other locations other than Camp Carroll are transshipped via the trucking routes already scheduled to KTO installations via 25th Trans BN contracts.

In the training arena, Ms Tu-hui Han attended a TCAIMS/WPS Interface Training Exercise in support of the 2nd Infantry Division from 16-20 May 05. This will enhance our ability to receive and process TCMDs electronically into WPS and ensure the accuracy of data.

Also, Mr. John Scott attended a "Train the Trainer course" on the Integrated Booking System (IBS) in Pearl Harbor, 9-13 May 05. The IBS Sustainment web based system is designed to query commercial carrier vessel schedules and book cargo electronically.

In other personnel notes, SSG Jon Bruce, our Movement NCO, participated in and supported the deployment and redeployment of Cobra Gold 05 in Thailand during April and May.

In June, we had "grip and grin" (meet the face behind the phone and emails) visit by a representative from the Air Force Post Office at Kimpo Air Base, Mr Paul Munshower, who stopped by to say hello as well as a visit by the new Pacific Area Director of Military Sales, Ms Melinda Arhontes, who stopped by to introduce herself.

TAX CREDITS FROM CASH SALES

Ms. Im, Chi-yon
Admin Section

The Korean Government implemented a new tax credit system in January 2005 that directly affects all of its citizens to include KN employees when they file their annual income tax. Detailed information is available at <http://taxsave.go.kr>.

This new tax credit system is based on cash sales made by its citizens. Cash sales are normally supported by a receipt being given at the point of sale. A receipt should be given for all sales above 5,000 won and if not given should be requested by the customer. Examples are private schools when you pay tuition in cash, and department and mart retail stores. Even when you make purchases at small markets, bakeries, public bathhouses, and sports centers a receipt should be given to customers making payments in cash. Internet sales are also included in this new system and customers should retain receipts provided through on-line purchases.

Individuals buying merchandise or ser-

vices must first register at <http://taxsave.go.kr> by providing some personal identifier such as the Korean Identification Number (KID), cell phone number or credit card number. When registering, however, a credit card number is considered safer than other personal identification.

KN employees should become thoroughly familiar with the law and the new tax credit system as it applies to filing their annual income tax returns.

Distinguished Visitors to Pier 8

By MAJ Terry Draper
Executive Officer

We're always busy at Pier 8 and busy is a good thing. Part of staying busy is the stream of visitors wanting to stop by Pier 8 for a "look see." This quarter showed the continued interest of many visitors wanting to observe and listen to how the KARGO KINGS contribute to the theater and SDDC's worldwide mission. The highlight of the quarter was the visit of both MG Fletcher and COL Harvey. This was MG Fletcher's first visit since assuming command of SDDC and COL Harvey made his last visit as the Commander of the 599th Transportation Group. With the upcoming PCS season in the KTO as well as the upcoming UFL exercise, we'll expect visits to increase during the next quarter and we look forward to continuing the education process on what the KARGO KINGS bring to the table!!! We also look forward to COL Kreklow's first visit to Pier 8 as the new 599th Transportation Group Commander!

Information Management Section

Mr. Insoo "James" Kim
Information Management Officer

In April 05, new versions for both the TIPS-Read and the TIPS-Write had been updated to the computers on the EEDSKs and the computers have the TIPS-Write docking station.

In May 05, there was TC-AIMS II Scenario Based Training (SBT) held at CP Casey and the TC-AIMS II to WPS data interface exercised and the result was successful. Exercised with downloading ATCMD data files from TC-AIMS II and uploading to the WPS backup system by WPS remote user account. All the ATCMD cargo records were posted into the WPS database without errors. Attendees were IM, Mr. James Kim and CDS, Ms. Tu-Hui Han and they developed a data interface SOP as SDDC players.

In May 05, NETCOM collected 837th Trans Bn server information to be exempted from the Inbound Port Blocking action by DISA. Requirements were submitted and Outlook Web Access (OWA) is in continuous service.

Spybot Spyware Blaster, new version 1.3 loaded on all workstations to establish more secure environment while accessing Internet.

In April and May 05 timeframe, the Information Management (IMO) Staff had supported 5 vessel operations in Chinhai

and Gwangyang with the WPS carryaway systems, EEDSK, INMARSAT and the Symbol scanners. The IMO staff deployed to Gwangyang to coordinate with Korean Telecom to install a commercial telephone line and the Internet circuit, and to solve the problems with the Internet access, and the Unisys Corporation, Daegu to solve the problems in upload the collected ITV files by the Interrogators to the USFKITV.korea.army.mil server via the Satellite phone line. IMO staff successfully developed the Intelligent Query (IQ) programs to provide the status of cargo processing for daily SITREPs.

In June 05, all Pier 8 workstations were migrated under the NETCOM Korea network. All Pier 8 users received USFK log in ID and Passwords to get into the network and Navigate Outlook 2003 for both SDDC and USFK mailboxes.

Mr. James Kim receives a Certificate of Recognition for his 20 years U.S. Government service from MG Fletcher.

KATUSA PERSPECTIVE

CHEMEX

CPL Moon, Do-sik

Admin Clerk

CHEMEX was held at Pier 8 on 14 April 05. All military, KNs and DACs from 837th Trans Bn took part in the CHEMEX exercise. 517th PMCT and R.O.K Navy 3rd fleet also took part in our exercise. This exercise was conducted to prepare for NBC situations that could possibly break out on the Korean peninsula. We divided into 4 teams to conduct trainings. Each Team conducted classes, reaction during the NBC situation and decontamination of equipment. The R.O.K 53rd Homeland Division, R.O.K Navy 3rd fleet, and MOMAF also took part in our exercise. They conducted decon training of Pier 8 and equipment.

A ROK 3rd Fleet Activity decontamination team decontaminates a jeep.

KATUSA soldiers did translation between the R.O.K Army and U.S soldiers. KATUSA soldiers instructed KNs and DACs about how to react to NBC attacks. Through this exercise we felt proud that we can do something for our country, despite the fact of the small number of KATUSA soldiers we have. It was a great chance to show how KATUSAs and the U.S Army can cooperate with R.O.K forces to defend our country and freedom as an alliance.

KATUSA & U.S. SOLDIERS FRIENDSHIP WEEK

SGT Jo, Hyung-rae

CMD Clerk

We had KATUSA & U.S. soldiers friendship week from 23 May to 26 May. We played sports and had parties during the week instead of working at the pier. We played tug-of-war, basketball, soccer, foot-volleyball and relay race. Wednesday was unit activity day, so we ate delicious food together and spent pleasant

SSG Bartell, first from left, with all the 837th KATUSA soldiers at Camp Hialeah Custer field after a soccer game.

time. On the last day, there was a closing party at the Haven club and we played skits and enjoyed performances at the party. It was an exciting and fantastic week.

HAMBURGER SALES

CPL Hong, Jin-chae
Supply Clerk

Kargo Kings had a hamburger sale on June 14th thru 17th for the crew of USS Frank Cable. The number of the people on the vessel was above 1,000.

U.S. Soldiers and KATUSAs worked hard and many people bought the burgers. Some of the Navy guys appreciated our efforts. We earned money for our organization fund.

The same as usual KATUSA soldiers working in the hamburger booth again to assist in raising unit moral and welfare funds. In the photo, (left) PFC Hwang, In-tae and (right) CPL Moon, Do-sik.

TACTICAL ROAD MARCH

PFC Koo, Joon-yong
NBC Clerk

On 29 April 05, all 837th Trans Bn KATUSAs and NCO's conducted a Tactical Road

March from Camp Hialeah to Children's Park. The uniform consisted of PT uniform with combat boots. The KATUSAs thought that our clothes were a strange combination but we found them to be very useful as we proceeded on the 30 minute road march to Children's Park. The uniform was chosen to get us adapted to road marching in the future. We had a lot of people looking and trying to figure out what we were doing and a lot of people actually taking a walk on the trails and enjoying the beautiful mountainous view. We went up and down the hills for about an hour. All of us were soaked with sweat at the end of the road march after returning to Camp Hialeah. It was good experience and a challenge to finish the tactical road march. We all learned a lot about road marching, and its purpose as we marched with our fellow KATUSAs and US Soldiers. "Kargo Kings"

KATUSA soldiers marching at Children's Park.

DROWN PROOFING

SGT Moon, Suk-bin

Senior KATUSA

13 June 2005, all military personnel (U.S and KATUSA) conducted drown proofing training at the Camp Hialeah swimming pool. The instructor was SSG Bartell. Nine (9) KATUSA soldiers participated in the training.

Every U.S military personnel can swim, but some of the KATUSA soldiers can't swim. We divided into two groups (swimmers / non-swimmers) then conducted the training. The swimmers group trained on using their BDUs as a flotation device.

The non-swimmers group (Instructor was SFC Bell) had a chance to remove their fear about water. I think this is one of my very special experiences and very useful in the summer time.

Joining the Kargo Kings

SSG Teresa Lewis
NBC NCO

Hello Kargo Kings. I am SSG Lewis and I am proud to be a member of a great family. I am coming from HHC ASG-KU, Third Army in Doha, Kuwait. I was a surface warrior there also. I am here unaccompanied, but I am a proud mother of two; Jaylen who is my 12 year old son, and

Alexia my 5 year old daughter. I plan to continue to do great things during my time here as the Training/NBC NCOIC and continue to train and lead soldiers and KATUSAs to uphold the Army traditions and standards. This is my first tour here in Korea and it has been quite an experience.

The people are very dedicated to their culture and are very unique with the different types of food here. I know I will not be able to speak fluent Hangul because I'm only here for a year but thanks to the KATUSAs and the KNs I have mastered the only words I need to make it here for the rest of my time here. They are **AN-NYUNG-HA-SE-YO**, **GAM-SA-HAP-NI-DA**, my favorite **KAK-A-JU-SE-YO**, and if I get lost **HIALEAH BUDAE**.

"Kargo Kings"

SSG Micah Colbert Movement NCO

First let me start off by saying it is a pleasure to be here and a pleasure to meet KN's, DAC's and soldiers alike.

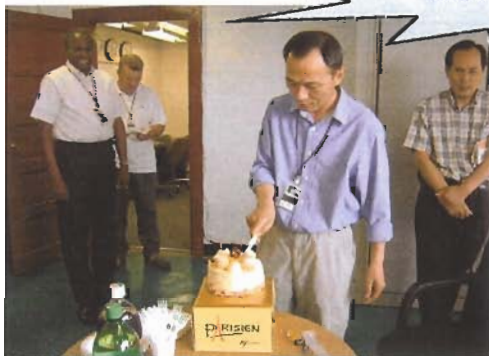

I am coming here from Camp Doha Kuwait, and so far I like it here. Korea is definitely a beautiful country, and I especially like the beauty of the mountains.

While I am here I plan to advance my career and be a positive drive and force in the 837th. I am here to learn and share my experiences. I am willing to help and be there for anyone who needs my guidance or advice or just an ear to listen.

I feel that you never stop learning and with that being said, most of the KN's have been here for years and I am sure they will enlighten my time here with a wealth of knowledge about port operations on the peninsula. So lets rock steady with the mission Kargo Kings and make this a fun and motivating experience.
